

SONTAGA KOLOBE MASHALANE

Aspiring Software Developer | C# & .NET | Android (Kotlin)

+27 79 864 0024 | Zondag2k3@gmail.com | [LinkedIn](#) | 1 Saltus Street, Hereford Estate, Centurion, Gauteng, South Africa

South African Citizen

PROFESSIONAL SUMMARY

Final-year Computer and Information Sciences student (graduating March 2027) with practical, hands-on experience building software in C# and .NET framework, and native Android apps in Kotlin. Backend developer on a five-person Work-integrated Learning team building Ubuntu Events, a full event management system for CANSA (Cancer Association of South Africa), where I own Authentication, identity, and audit logging on Microsoft Azure. Also built authentication, reporting, and notification features for Wallet Wink, a Kotlin and Firebase budgeting app. South African citizen based in Centurion, Gauteng, looking to start as a software developer and grow into software engineering through continued hands-on project work.

EDUCATION

Bachelor of Computer and Information Sciences <i>The IIE Emeris Institution Final Year (In Progress)</i>	March 2024 - March 2027
Higher Certificate in Mobile and Web Development <i>The IIE Emeris Institution</i>	March 2023 - March 2024

CERTIFICATIONS

• Online Certificate - Java Full Stack Development	January 2025 - March 2025
--	---------------------------

TECHNICAL SKILLS

- Coding Languages: C#, Kotlin, Java, HTML, CSS, JavaScript
- Frameworks: .NET Framework, ASP.NET Core MVC, ASP.NET Core Web API
- Mobile Development: Android app development with Kotlin
- Cloud & DevOps: Microsoft Azure (App Service, SQL Database, Storage Account, Functions, Database Cloning), GitHub Actions CI/CD, GitHub workflow and collaboration
- Databases: Microsoft SQL Server (MSSQL), Oracle Database, Firebase Firestore
- Core Concepts: Object-Oriented Programming, Data Structures and Algorithms, RESTful API design, Authentication and Authorization
- Tools: Visual Studio, Git and GitHub, GitHub Desktop, Visual Studio Code, NetBeans, Firebase Console
- Other Coursework: Project Management, System Analysis and Design

SOFT SKILLS

- Microsoft Office: Word, Excel, PowerPoint, Figma, Draw.io
- Teamwork and collaboration: experienced working in multi-person development teams using GitHub workflow
- Communication: comfortable explaining technical work to both technical and non-technical people

PROJECTS

[Personal Portfolio Website](#)

- Designed and built a personal portfolio website from scratch using HTML, CSS, and JavaScript to showcase completed projects.
- Built an image gallery feature for each project with next and previous navigation, an image counter, and keyboard and swipe support.
- Included a dedicated skills section highlighting C#, .NET, Android/Kotlin, Azure, and database skills.

Wallet Wink - Personal Budgeting App

Team Project | Android (Kotlin), Firebase

- Built the authentication screens (sign up, log in, password reset) using Firebase Authentication.

- Built the reports and analytics screens showing users a clear view of their spending, and kept the dashboard updated with real-time budget information.
- Implemented notifications to alert users when they were approaching or going over their budget.
- Worked with Firestore security rules to keep user data safe and resolved data field mismatches between team members' code to keep the app stable.
- Adjusted the authentication flow after Firebase Dynamic Links was deprecated, keeping the app working with minimal disruption to users.

WORK & VOLUNTEER EXPERIENCE

Ubuntu Events - CANSA Event Management System

2026 - Present

Work-Integrated Learning Team Project (Team ByteForge, 5 members)

- Collaborating with CANSA (Cancer Association of South Africa) to build a digital event management system for the organisation, covering both a web platform and an Android app.
- Due to signed NDA, i am restricted to further disclose the full details of the system features and tools used.
