

Sontaga Kolobe Mashalane

Zondag2k3@gmail.com | +27798640024 | Pretoria, South Africa

Professional Summary

Enthusiastic and detail-oriented third-year Computer and Information Science student specializing in Application Development. Passionate about software engineering, cloud computing, and building practical solutions using modern technologies. Demonstrates strong problem-solving skills, teamwork, and a continuous desire to learn emerging trends in software and web development.

Technical Skills

Programming Languages: Java, C#, JavaScript, Kotlin

Web Technologies: HTML, CSS, React-Native

Frameworks: ASP.NET, Java Swing, Spring boot (Intermediate)

Databases: MySQL, Microsoft SQL Server (SSMS), Oracle SQL Developer, Firebase

Platforms: Microsoft Azure (Intermediate)

Tools & IDEs: Git, NetBeans, Visual Studio, VS Code

Concepts: Object-Oriented Programming (OOP), Network, UI/UX Design Principles

Education

1. Higher Certificate in mobile application and web development
Varsity College, Pretoria, South Africa
Graduated: March 2024
2. Bachelor of Computer and Information Sciences in Application Development
Varsity College, Pretoria, South Africa
Expected Graduation: March 2027

Key Modules: Database, Network Engineering, Cloud Computing, Web Development, System Analysis and Design, Programming, Enterprise Software

Projects

Claims Management System (C#, ASP.NET, Entity Framework)

- A full-featured Enterprise Software System with Lecturer Claim view, Program Coordinator view, Academic Coordinator view, HR Portal, implementing real-time changes to the application and role-based.
- Implements security best practices including authentication and authorization.

ABC Management System (C#, ASP.NET Core MVC, Azure SQL Database, Azure Storage)

- A comprehensive application built with ASP.NET MVC that allows users to Store to Blob, File, Queue, Table and Azure SQL with Functions implemented.

Movie Site (C#, ASP.NET Core MVC, TMDB API, Json File)

- A full-featured Movie platform with TMDB API Integration, Bootstrap 5 Styling, Advanced Filtering, and Comments System, Movie Database API. Supports searching, popular movies, now playing, and upcoming releases.

Certifications

- Java Full Stack Development (Intermediate Certificate) – Coursera (Online)

Additional Information

- Strong analytical and problem-solving abilities
- Excellent teamwork and communication
- Adaptable and quick learner
- Attention to detail and time management
